EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis J. Capezzuto (Reg. No. 37,107) on 4/14/08.

2. Amend claim 40: after line 6, add –

“inserting the object into the body of the subject;
generating the electromagnetic field within the body;
detecting the acoustic waves emitted by the transducer and generating signals responsive thereto; and processing the signals so as to determine six-dimensional position and orientation coordinates of the object in the body.”

6. The following is an examiner's statement of reasons for allowance: Vesely discloses a system for carrying out surgery, biopsy, and ablation of a tumor or other abnormalities where the system uses transducers that are hard-wired from a tumor location in breast tissue to the computer system. Vesely does not teach a wireless acoustic tag fixed to the object comprising a shell having a cavity and a medium contained within the shell where the wireless tag emits a second acoustic wave at a second frequency different from the first frequency. The system and method of Vesely is capable of producing multiple 3D volumes and is required to be combined with a separate imaging modality to produce a 4D image and is not capable of determining both position and orientation coordinates (six dimensional position and orientation coordinates).

Therefore it would not be obvious to combine Vesely with the art of record to teach or suggest a wireless acoustic tag as claimed to determine the position of an object within a patient's body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
